

PFSD Inventors Qualify for State

Post Falls School District students recently participated in the Regional Invent Idaho competition held at Silver Lake Mall in Coeur d' Alene. The State Competition will be held in Moscow on March 2 and 3. Invent Idaho is the premier student invention program in the Northwest, having provided a forum for thousands of young inventors in grades one through eight since its inception in 1989. Invent Idaho celebrates student creativity and innovation, while teaching the inventive thinking process in an interdisciplinary curriculum. Young inventors participate in progressive levels of competitions, including three Regional events held across Idaho, culminating in an Invent Idaho State Finals event.
