Policy No. 502.4

Policy Title: Grade Placement

Page 1 of 1

It is the policy of the Board of Trustees that grade placement shall be the responsibility of the principal and shall be based on general achievement, consideration given to mental, physical, emotional and social maturity of the child.

In general, pupils transferring into the system will be placed in the same grade level as in the school from which they transferred. Children transferring as well as continuing pupils may be retained or advanced in grade after screening reveals that alternative placement would better meet the student's needs.

From time to time a parent will disagree with the decision of the principal. The parent or guardian may request review of the decision by the superintendent or his/her designee.
