

Special Note to Parents:

In Case of Evacuation at Post Falls Middle School

It is our belief that Post Falls Middle School is a safe and caring place for each student who attends school here. However, we have developed a safety plan, which includes the possibility of evacuation from the premises, should an unforeseen emergency arise.

Please be aware that in the event of a campus evacuation, Post Falls Middle School students will, at a time it is determined safe to do so, be evacuated to Mullan Trail Elementary's football field. Mullan Trail is located at 300 Cherry.

It is at this site where parents can pick up their children. For the safety of all PFMS students, identification will be required before a student is released to a legal guardian. Release will be handled by PFMS administrators or counselors.

Safety of your child is of our highest concern. Thanks for your cooperation in the unlikely event that an evacuation takes place.
